

# DISA 2024 Technical Roadmap

Steve Wallace

Chief Technology Officer

# FY24 Tech Watchlist

● New in FY24 ● Existing FY23 ● Updated

*Solving Today's Challenges While Driving Tomorrow's Solutions*

**MISSION:** Lead the identification of agency focused requirements to enhance existing or future services, capabilities, and processes. Lead product-driven capability assessments, defining value to DISA and our mission partners.

**MONITOR:** Area of technical interest. Actively surveying the capabilities & maturity in this space.

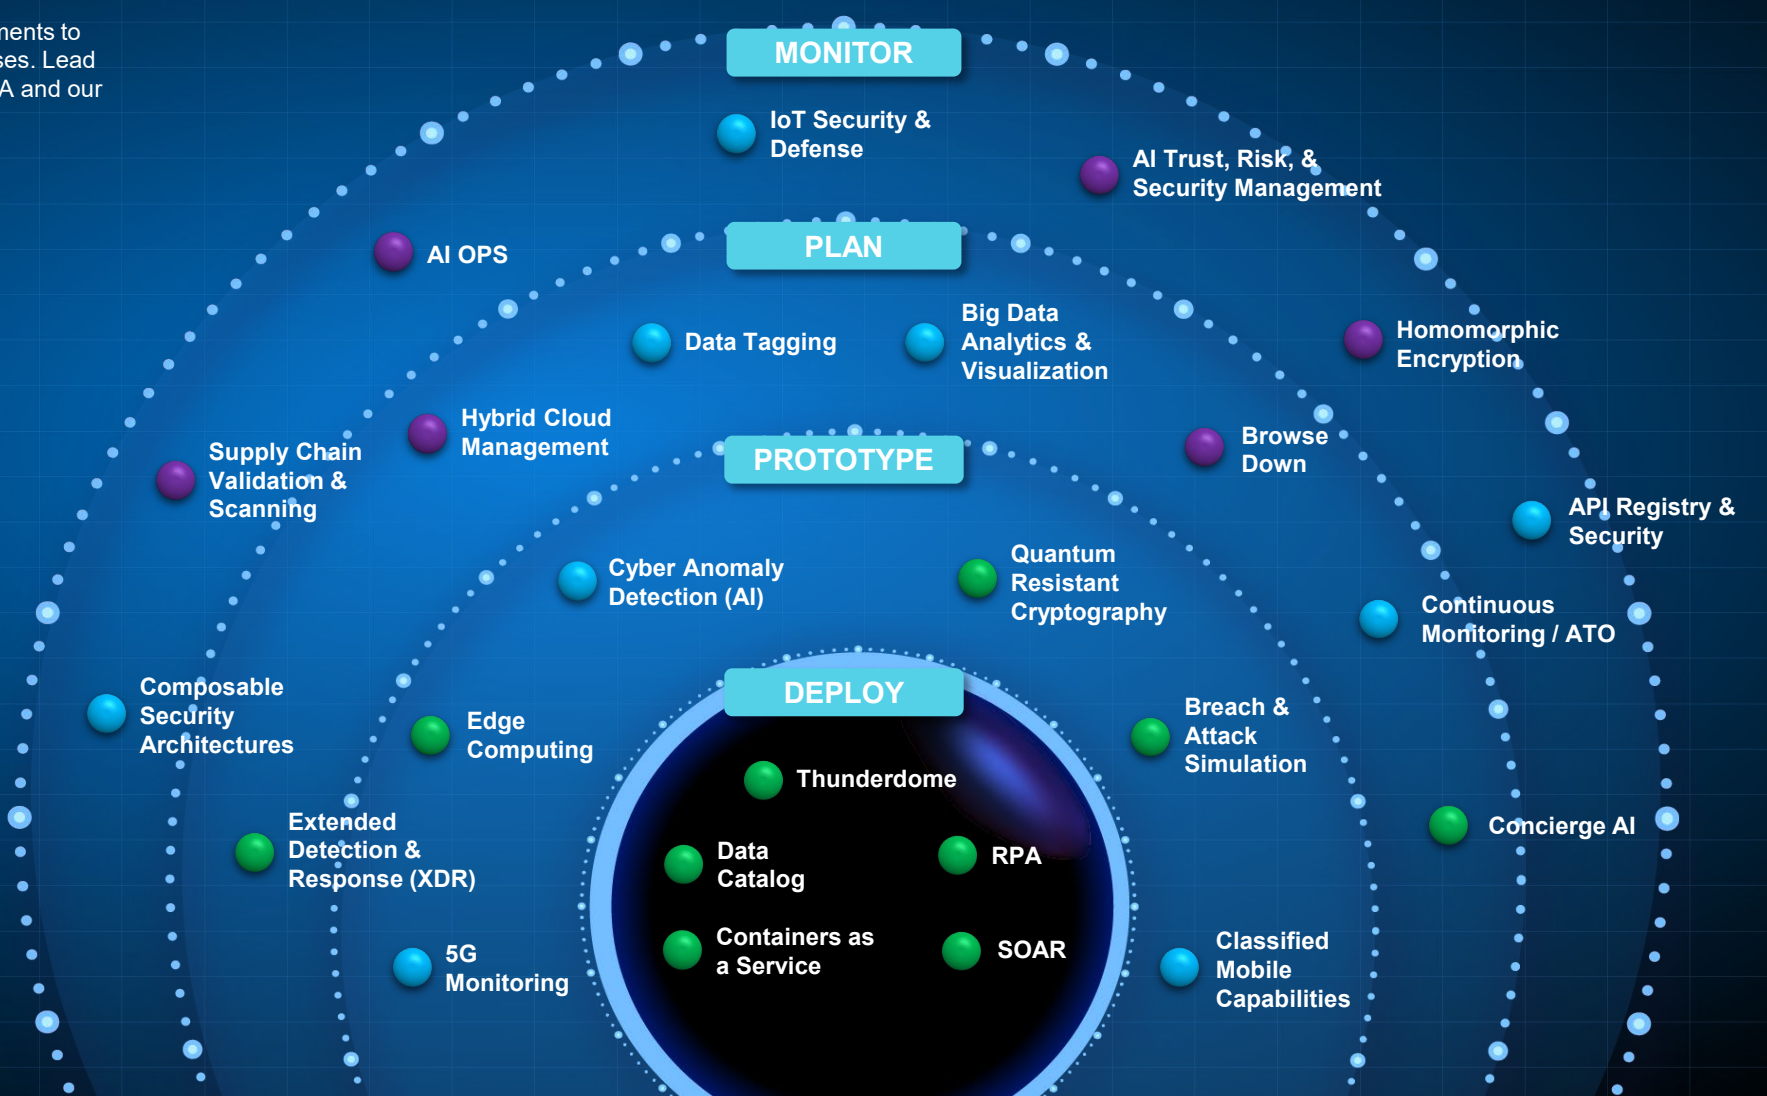

**PLAN:** Determining technical impact on DISA and DoD missions. Understanding impacts and integration points within enterprise.

**PROTOTYPE:** In process of building or executing.

**DEPLOY:** Prototype complete and deploying capability to enterprise.

**PRODUCT LEADER FOR  
NEXT GENERATION CAPABILITIES**

# Technical Principles

## Simplify

Eliminate as much complexity from a design as possible

## Integrate

Leverage existing investments from across the Department

## Iterate

Move rapidly to add capability in an agile manor

**DISA: The premier IT and telecommunications provider for the US military**
